

# Global Tier 1 Banks, London

Banking IT contracts (6 months+)

Immediate start

## Transformation Consultant PMOs & Project Managers

**Piscari**<sup>®</sup>

Associates

### All candidates require:

- Previous experience at Tier 1 investment banks plus a large IT services / consultancy company.
- Qualifications: degree 2:1 + Prince 2 or equivalent.

### Transformation Consultant

**Transformation / change management consultant** to work with the IT Production Support team on a transformation programme.

- Banking experience: 6 years+ experience in IT transformation / change management consultancy roles within investment banking IT Production Support. Good knowledge of IB systems.
- Functional experience: transformation and change management experience within a banking IT environment; organisational change; organisational design / development; process re-engineering; coaching.
- Level: experienced consultant.

### FX Project Manager

**Project Manager** to support the planning and implementation of a single position keeping system for the client.

- Banking experience: 6-12 years project management in banking IT. Knowledge of FX is a pre-requisite as is the ability to influence at all levels within the organisation.
- Functional experience: significant PM experience including stakeholder management.
- Systems experience: previous experience with Finacle or Wallstreet Systems' products would be a significant advantage.
- Level: experienced project manager.

### Fixed Income PMO set-up: 2 PMs & 1 PMO

**One senior PM (possibility of contractor to permanent position for the right candidate)**

**Plus one intermediate PM + one intermediate PMO.**

To set up a strategic PMO group within the Fixed Income Technology organisation. Setting up PMO functions from scratch (systems, processes, governance, tools, templates, structures, etc). An appreciation of SDLC+ will be an advantage. Must have worked with senior stakeholders.

- Banking experience: Fixed Income experience within a technology environment is highly desirable.
- Functional experience: 6-12 years Project Management / PMO experience in Banking IT.
- Systems experience: SharePoint an advantage.
- Level: 1 senior PM + 1 intermediate PM + 1 intermediate PMO.

### Prime Services Development Project Manager

A senior and high quality end-to-end **project manager** to drive through a number of projects within the Prime Services group.

- Banking experience: 12 years investment banking / prime services experience.
- Functional experience: proven application development and delivery skills within an investment banking environment. An appreciation of SDLC+ will be an advantage.
- Systems experience: knowledge of prime services / IB systems.
- Level: Senior Project Manager.

### High Quality PMOs

**PMO roles supporting Project Managers** within a banking IT environment for several of our clients.

- Banking experience: 3+ years investment banking experience essential.
- Functional experience: 4-5 years of strong PMO experience gained within banking IT.
- Level: junior and intermediate PMOs.

### High Quality PMs

**IT Project Managers** with specific experience in investment banking for several of our clients.

- Banking experience: 8-12 years investment banking, asset management and private banking.
- Functional experience: solid track record of project managing complex IT banking application development and infrastructure projects across all phases of the project lifecycle.
- Level: intermediate and senior Project Managers.
